c/o Faculty of Agriculture, Tokyo Imperial University.

Bulletin of the Agricultural Chemical Society of Japan.

Vol. 17.

(Nos. 196-207)

1941

Contents

I. Transactions.

PAGE

T. YOSHIDA, T. FUKUURA, T. TANAKA und K. YAMAFUJI: Einige Versuche über die Bestimmung der reduzierenden Zucker im Zuckerrohr und im Handelszucker. *39*

T. YOSHIDA, B. WO, T. FUKUURA und K. YAMAFUJI: Untersuchungen über den Kohlenhydratstoffwechsel im Zuckerrohr mit Hilfe der Pikrinsäuremethode. *51*

K. HONDA, C. WO, N. MIYAJI und K. YAMAFUJI: Weiteres über die Bestandteile des Zuckerrohrs. *71*

T. TATSUNO, F. NISHIO, S. AOKI und K. YAMAFUJI: Über das Pentosan des Zuckerrohrs. *81*

II. Abstracts from Transactions published in Japanese.

Page

On Some Properties of Aldol and the Construction of *p*-Aldol. (M. HORI). 1

Study of the Insecticidal Principle in the Smoke Produced by Combusting Incect Powder. (Part III.) (Makoto NAGASE). 2

Sterilizing Action of Acids and Phenols. 15th Peport. Summaries and Conclusion of the Sterilizing Action of Phenols and Aromatic Acids. (Sogo TETSUMOTO). 2

Studies on the Acid Fermentation by Rhizopus Species, (Part I.) (K. SAKAGUCHI, T. ASAI, and H. MUNEKATA), ... 4

On the Biochemical Properties of Diphtheria Toxin. (Tetutaro TADOKORO and Tuneyuki SAITO). 5

Studies on the Determination of Vitamin B_1 in Various Food Materials by the Thiochrome Method. (Hisasi ARIYAMA, Ryusaku HOSINO, and Yosisaburo NAKAZAWA. ... 5

Chemical Researches on the Pulp Woods of Siam. (Masuzo SHIKATA, Yoshitugu KIMURA, Kozo NAKAMURA, and Shinzo HACHINOE). 6

Über die Beseitigung der hemmenden Wirkung des Furfurols durch Natriumsulfit. (Besonders in Bezug auf ein Verfahren, die Maisch durch Säureverzuckerung zu verbessern.) (Shinichiro BABA). 9

An Iodometric Method for the Determination of the Sum of Aldol and *p*-Aldol Existing together with Acetaldehyde. (M. HORI). ... 10

On the Regenerated Brown Forest Soil in North-east Manchuria. (R. KAWASHIMA and M. NAGATA). 10

On the Occurrence of Threonine in Meat-proteins of Some Marine Animals. (Mrs. Yasu HATAKOSHI). 10

Chemical Studies on Clay-soil under Water. (Part II.) On the Chemical Constituents of Shallow Water Deposit Along the Coast of Chosen. (Masayoshi ISHIBASHI). 11

Untersuchungen über die Beziehungen von Bataten zur Alkoholproduktion. II. (Y. TAKEDA, K. SUEMATU und M. UTIKOSI). ... 11

Dietary Studies on the Increase of Utilizing Value of Northern Farm Animals. (II). Hair Growth and Feed. (Rabbit). (E. TAKAHASHI and K. SHIRAHAMA). 11

On the Stimulant for Cane Sugar Formation in Plants. (VIII.) (Tetutaro TADOKORO and Masao NISIDA). 11

Studies on the Nutritional Chemistry of the Cuttle-fish. III. The Mineral Composition of Meat and Liver of Cuttlefish and Liver Amylase. (Mrs. Yasu HATAKOSHI). 11

Functional Studies on Soils. (XI～XII). (MISU-Hideo). 12

Über den Brechungsexponenten der Proteinlösung (S. SHINANO). 12

On the Changes in the Lacto-flavin Contents of Silkworms (Bombyx mori L.) during Metamorphosis. (B. MARUO and H. KOIKE). 13

Studies on the Propionic Acid Fermentation. Part I. (Kinichirô SAKAGUCHI, Mamoru IWASAKI, and Syûzô YAMADA). 13

Über eine neue Quantitative Analyse des Eisens. (Shinichiro BABA). 16

On the Brown Forest Soil in the Upper Region of the Non River, North Manchuria. (R. KAWASHIMA and M. NAGATA). 16

On the Preparation and Some Properties of Yeast Amylase. (Reitaro MURAKAMA). 20

Functional Studies on Soils. (XIII～XIV). (MISU-Hideo). 20

Ein synthetischer Versuch von β-Indol-essigsäure (Indol-3-essigsäure). (Sankiti TAKEI und Takenosuke TAKANO). 20

On the Fermentation Degumming of Waste Silk. Part VI. The Action of Degummase and Thermodegummase upon Protein Substances. (Hideo KATAGIRI and Toshio NAKAHARA). 21

Researches on "Maoran" as a Raw Material for Paper Pulp and Raw Pulp. (Motô YAMANE and Tomizô MATUI). 21

On the Fixation of Silk-Sericin with Formaldehyde. (Tosio NAKAHAMA and Ikuzo SAKAGUCHI). 22

Biochemical Studies on Diphtheria Toxin. (Tetutaro TADOKORO, Tuneyuki SAITO, and Naomoto TAKASUGI). 22

On the Hydrolysis of Fats and Fatty Acid Esters. (9). (Toyoki ONO). 22

Some Experiments on Fresh Tobacco Leaves. (K. OIKE). 24
Über die Bestandteile der japanischen Mistel. I. Isolierung von Arginin. II. Untersuchungen über Harze. (Yataro OBATA). 25
Functional Studies on Soils. (XV～XVI). (MISU-Hideo). 25
Studies on the Chemical Sterilization and Preservation on Fishes and Shellfishes. (Sogo TETSUMOTO). 25
On Amino Acids in Saké. (Yasuji TADA and Toraji TUKAHARA). 26
The Effect of the Amount of Food Consumed in Animal Experimentation. (Isa NAKAMURA). 26
Biochemical Studies on Glutathione. Report XVI. (The Glutathione Content in Organ Tissues in Starvation.) (Masayoshi OGAWA). 26
The Utilization of the By-Products of Soybeans. (Part VI.) On the Hydrolysis of Stachyose. (Yosaburo IWASA). 27
Über den Mechanismus der Enzymwirkungen. (Yukihiko NAKAMURA und Kakomu SATOW). 27
Influence of Monochromatic Lights on the Action of Enzymes. (Report XXXIV～XXXVI). (Reitaro MURAKAMI). 28
On the Chemical Studies of the Bagase-pulp. (Tetutaro TADOKORO and Keizo ITO) 28
Studies on the Hydrolysis of Protein at High Temperature and Pressure (I). (Kenzo NAKAJIMA and Masami IKEDA). 29
The Fat Metabolism of the Mold Fungi. (I). (The Fat formation by *Penicillium javanicum* cultured on the sugar cane juice.) (Shinichi SUZUKI). 30
Studies on the Chemical Constituents of "Inekoji." Part VIII. On the Margaric Acid Ester of Arabit (I). (Teijiro YABUTA, Yusuke SUMIKI, and Kinjiro TAMARI). 31
Abbau von Aminosäuren durch Asp. Oryzae. IV Mitteilung. (Teijiro UYEMURA). 31
On the Preparation of Methylethylketone and Isobutylaldehyde from 2, 3-Butyleneglycol (Shinzaburo FURUHASHI and Kisetsu Ō-HARA). 31
Studies on the Root Forming Substances of Cuttings. (Kinjiro TAMARI). 31
On the Fixation of Sericin of Raw Silk. (Part VI). On Method of Denoting the Degrees of Fixation of Sericin. (Masami OKU). 32
Studies on the Chemical Sterilization and Preservation on Fishes and Shellfishs. II～III. (Sogo TETSUMOTO) 32
On the Oxidizing Enzymes in Tea Leaf. I. (Hideiti TORII). 32
On the Fixation of Silk-Sericin with Formaldehyde. Part 2. The Adsorption of Formaldehyde on Various Kinds of Sericin. (Toshio NAKAHAMA and Ikuzo SAKAGUCHI). 33
Functional Studies on Soils. (XVII～XIX). (Hideo MISU). 33
Functional Studies on Soils. (XX～XXII). (Hideo MISU). 33
On the Denaturation of Sericin. (Part 4.) Some relation of denaturation of $\alpha_{3.8}$-sericin with $\alpha_{4.4}$-sericin. (Zirô HIROSE). ... 33
The Colloidal Clay in Solonchak and Solonetz Soils in Manchuria. (KAWASHIMA and M. NAGATA). 36
Studies on the Value of Chemicals as Manure for *Juncus effusus* L. var. *decipiens* BUCH. III. On the Value of Some Compound Fertilizers. (H. SUTOH). 36
On the Chemical Studies of the Bagase-pulp. (2～3). (Tetutaro TADOKORA and Keizo ITO). 38
Separation and Identification of Fatty Acids. Part 3. A New Method of the Preparation of Pure Oleic Acid and Elaidic Acid by Means of the Hydroxamic Acid Method. (Y. INOUYE and H. YUKAWA). 44
Zinc Dust Distillation of some Benzene Compounds. (Zirô NIKUNI, Hiroshi HAYASHI, and Susumu TSUJI). 45
Über die quantitative Bestimmung der Pyrethrine. IX. Mitteilung. Veränderung von Pyrethrinen durch Licht und Wärme. (Sankiti TAKEI, Kiyosi WAKAZONO und Keizo HIRAOKA). 46
Ascorbic Acid Content of Citrous Fruits. (Yasuo IWASAKI and Toshio KOMATSU). 47
Researches on Mechanical Wood Pulp. (Part VII). The Practical Application of the Fiber Classifier to Pulp-Studies. (K. KIMURA). 47
Simpler Estimation of Copper Number of Pulp. (S. HONDA and K. HAGIWARA). 47
Dietary Studies on the Increase of Utilizing Value of Northern Farm Animals. (III). Experiment on Sheep with Hydrolyzed Products of Human Hair. (Part 1). (E. TAKAHASHI, K. SHIRAHAMA, and M.

YOSHIDA). 47
Studies on Methionine and its Derivatives. (I). On the Detection of Methionine. (Yoshio TSUCHIYA), ... 48
On the Chemical Studies of Bagasse Pulp. (4). (Tetutaro TADOKORO, Masao NISHIDA, and Keizo ITO). 49
Researches on Bamboo in Taiwan as a Raw Material for Pulp. Part V. (On the Digestion of "Keitiku" by the Magnesium Sulfite Method). (Minoru TUTIYA, Setuo FUKUHARA, and Yoshiteru KATO). 49
On the Flavonol Glucoside of Euphorbia thymifolia L. (Makoto NAGASE) 50
Functional Studies on Soils. (XXIII~XXVI). (Hideo MISU). 50
Separation and Identification of Fatty Acids. (Y. INOUYE, H. YUKAWA, and H. KATSUMATA). 59
Study of the Insecticidal Principle in the Smoke Produced by Combusting Insect Powder. (Part IV). (Makoto NAGASE). 60
Studies on Methionine and its Derivatives. (II). On the Separations of Methionine from Crude Leucine. (Yoshitaro TAKAYAMA and Yoshio TSUCHIYA). 61
Untersuchungen über die chemischen Bestandteile der Früchte von *Rhus semialata* Murr., insbesonders die salzig Schmeckenden. (H. UOTA und K. NISHIDA). 62
Functional Studies on Soils. (XXVII~XXVIII). (Hideo MISU). 65
Biochemical Studies of "Bakanae" Fungus. Part 8. Effect of Gibberellin on Soybean Malt. (T. YABUTA, Y. SUMIKI, N. MURAYAMA, and K. SUZUKI). 65
The Effect of Cold Storage upon Vitamin A Content of Whale Livers. (T. MORI and S. ASAKAWA). 66
On the Chemical Studies of the Bagasse Pulp. (5). (Tetutaro TADOKORO, Masao NISHIDA, and Keizo ITO). 66
On the Oxidizing Enzymes in Tea Leaf. II. (Hideiti TORII). 66
Studies on the Tannin of *Acasia confusa* Merrill. (II). (Minoru ISHII). 66
Studies on Red Yeast. 1. *Sporobolomyces* nov. sp. (Report 1) Morphology and Physiology of the yeast *Sporobolomyces* nov. sp. (Izue YAMASAKI and Seizi MORISHTA). 67
Studies on the "P'u-hwang" Seed Oil. (Yuiti SHINOZAKI and Sizuo TAKUMI). 67
On the Chemical Mechanisms of Enzymatic Hydrolysis of Oils and Fats. Part 1. Splitting of Fatty Acid Residues from Natural Oils by Ricinus Lipase Action. (Y. INOUYE and G. SHINTANI). 68
Glutathione Content of Liver. (Lubus dexter, Lubus sinister, Lubus anterior, Lubus posterior, Lubus papiliformis, Lubus caudatus). (Masayoshi OGAWA and Yutaka SETO). 69
On the Metabolism of Organic Acids by Bacteria. III. (S. TADA). 70
Studies on Bios. Part III. Synthesis of Na-*dl*-Pantothenate. (Nobusada ŌKOTI and Tomozi EGAWA). 70
On Xylitol. (2). On Xylitolanhydride (Xylitan). (T. YABUTA, K. ASO, S. KIMOTO, and K. MIWA). 76
Studies on the Mucilage from Rhodophyceae. IV. The Chemical Structure of the Sulfuric Acid Group Split of Mucilage from Chondrus ocellatus Holmes. (T. MORI and Y. TUTIYA). 76
Studies on Red Yeast. 1. *Sporobolomyces* nov. sp. (Report 2) Provitamin A Content in the Yeast *Sporobolomyces* nov. sp. (Izue YAMASAKI and Seizi MORISITA). 76
On the Metabolism of Organic Acids by Bacteria. IV. (S. TADA). 77
Die Konstitution eines neuen, aus der Stärke isolierten Disaccharids und die daraus gezogene Betrachtung über den Aufbau des Stärkemoleküls. (Yukihiko NAKAMURA). 77
Functional Studies on Soils. (XXIX~XXXI). (Hideo MISU). 78
Studies on Methionine and its Derivatives. (III). On the Formation of γ-Methylmercapto-propyl-amine and γ-Methylmercapto-propyl-alcohol from Methionine. (Yoshio TSUTIYA). 78
Researches on Bamboo in Taiwan as a Raw Material for Pulp. Part VI. On the Sulphate Pulp of "Keitiku." (Minoru TUTIYA and Yoshiteru KATO). 78
Studies on a Lactogenic Factor in Soy-beans. IV. Chemical studies of the crystals isolated from the lactogenic alcohol extract. V. The effect of the isolated crystals on the lactation in the guinea pigs. (Yosaburo IWASA). 79
Studies on Bios. Part IV. Effect of Pantothenic Acid, Vitamin B_1, B_6, Nicotinic Acid, *p*-Aminobenzoic Acid and Meso-inositol on a few strains of Sacchromyces cerevisiae. (Nobusada ŌKOTI). 79

On the Stimulant for Cane Sugar Formation in Plants. (IX). (Tetutaro TADOKORO, Yoshio MAKINO, and Keizo ITO). 79
On the Biochemical Properties of the Rice Embryo. (Tetutaro TADOKORO, Tuneyuki SAITO, and Jiro HASHIMOTO). 80
On the Purification of Tyrosine. (Yoshio TSUCHIYA). 80
Utilization of Alcoholic Distillation Waste. (Wasaburo MOGI and Takeo NAGATOMO). ... 80
Acid Saccharification of Mulberry Branches and Alcoholic Fermentation of the Saccharified Solution. (T. YABUTA and T. TATUMI). 80
Biochemical Studies of "Bakanae" Fungus. Part 9. Chemical Constituents of the Fungus. I. (T. YABUTA, Y. SUMIKI, T. TAMURA, and N. MURAYAMA). 80
Enzymatic Studies on Cereals. (Part XIII). On the Change of the Amylase Action During the Ripening of Rice. (Gohei YAMAGISI). 85
On Xylitol. (3). Physical Properties of Xylitol. (T. YABUTA, K. ASO, S. KIMOTO, and K. MIWA). 85
Studies on "Tosetu," a Soy-bean Preparation. I. On the Changes of Composition of Tosetu during its Manufacture and Storage. (K. KATAI and B. KITAHARA). ... 86
Ascorbic Acid Content of Dried Peel, Canned Fruit and Juice of Satsuma Orange (Mandarin orange). (Yasuo IWASAKI and Toshio KOMATSU). 86
Studies on Red Yeast. 1. *Sporobolomyces* nov. sp. (Report 3) Carotinoid Pigments in the Red Yeast *Sporobolomyces* nov. sp. (Izue YAMASAKI, Seizi MORISITA, and Motomasa KAKEI). 86
On the Synthesis of Aspartic Acid. (Yoshio TSUTIYA). 87
Functional Studies on Soils. (XXXII～XXXVII). (Hideo MISU). 87
Biochemical Studies of "Bakanae" Fungus. Part 10. The Chemical Constitution of Gibberellin. I. (T. YABUTA, Y. SUMIKI, K. ASO, T. TAMURA, H. IGARASI, and K. TAMARI). 87
Zur Chemie des Muskeleiweisses. II. Mitteilung. Aminosäuregehalt des Kaninchenmuskeleiweisses. (M. KANDATU). 87
Untersuchungen über das sogenannte „Gluconobacter." I. Mitteilung. (Teijirô UYEMURA und Keiji KONDÔ.) 88
Biochemische Untersuchungen über die Bildung von Pflanzenbestandteilen. (Yukihiko NAKAMURA und Tokuji SCHIMOMURA). 88
Separation and Identification of Fatty Acids. Part 6. Preparation of Pure Linoleic and Linolenic Acids by Means of Hydroxamic Acids Method. (Y. INOUYE and H. YUKAWA). 89
On the Chemical Studies of the Bagasse Pulp. (6). (Tetutaro TADAKORO and Masao NISHIDA). 92
Studies on the Components of the Bark of Rhamnus japonica (V). The Position of the Free Hydroxyl-group of α-Sorinin. (Zirô NIKUNI). 92
Über die Bestandteile der japanischen Mistel. III. Mitteilung. Oleanolsäure, zwei Harzalkohole (β-Amyrin u. Lupeol) in den Blättern. (Yataro OBATA). 94
On the Forest Soil Type in North-Eastern Manchuria. (R. KAWASHIMA, S. TANAKA, and G. TOYAMA). 95
Studies on Crystalline Catalase. (I). On the Isolation of Crystalline Catalase from Beef Liver. (Matsunosuke KITAGAWA and Masaharu SIRAKAWA). 95
The Determination of Carbonic Acid. (II). (Yosaburo IWASA and Kunitaro IWAMOTO). ... 95
Studies on Vitamins of Fish Livers. (Part III). Relation Between Vitamin A Content and Characteristics of Liver Oil. (Hideo HIGASHI). 96
On the Fixation of Sericin of Raw Silk. (Part VII). Dechroming Action of Some Chemicals and Chemical Combinations between Sericin and Basic Chromium Complex Salt of Chrome-fixed Cocoon Silk Fibres. (Masami OKU and Sigetosi SAITO). 100
Synthese des Oxyäthlphthalimid. (Y. OBATA). 101
Untersuchungen über das sogenannte "Gluconobacter." II. Mitteilung. (Teijirô UYEMURA und Keiji KONDO). 101
Functional Studies on Soils. (XXXVIII～XXXX). (Hideo MISU). 101
Studies on "Tosetu," a Soy-bean Preparation. II. On the Vitamin B Content of Tosetu. (B. KITAHARA, K. KATAI, and M. HANADA). 101
Studies on the Nutritive Value of Weeds. (3). (G. FUKAI and M. SATAKE). 101
On the Bio hemical Properties of Tomato

and Potato Viruses. (Tetutaro TADOKORO, Tuneyuki SAITO, and Naomoto TAKASUGI) ··· 102
On the Absorption Spectrum of Fatty Oils in Ultraviolet Region. (Kozo KAWAKAMI and Hideo MIYAYOSHI). ····· 102
Chemical Researches on the Dyeing of "O-shima-Tsumugi." Part I. On the Dyeing Tannins from *Rhaphiolepsis umbellata*. (Kotaro NISHIDA). ····· 103
Chemical Studies on Shark-Meat. (1). On the Chemical Composition of Shark-Meat. (Kinsuke KONDO, Sakae SHINANO, and Kenkichi YAMAMOTO). ····· 103
On the Denaturation of Proteins in Benzine-Extracted Soy-bean During Storage. (I). (Shigeki MORI). ····· 103
Enzymatic Studies on Cereals. (Part XIV). On the Mechanism of the Decomposition of Starch by the Action of the Amylase of Rice. (Gohei YAMAGISI). ····· 103
Biochemical Studies of "Bakanae" Fungus. Part II. The Chemical Constitution of Gibberellin. II. (T. YABUTA, Y. SUMIKI K. ASO, T. TAMURA, H. IGARASHI, and K. TAMARI). ····· 104
Chemical Studies on Shark-Meat. (II) On the Solubilities of Shark-Meat-Protein. (Kinsuke KONDO and Yoshio YAMAMOTO). ··· 105
Studies on Insulin from Fishes. (Yuzo TOHYAMA, Sogo TETSUMOTO, Saburo FUKUYA, and Shūzō YAMADA). ····· 105
On the Steppe Soil Type in North-Eastern Region of Manchuria. (R. KAWASHIMA). ··· 107
Untersuchungen über das sogenannte "Gluconobacter." III. Mitteilung. (Teijirô UYEMURA und Keiji KONDO). ····· 107
The Chemiacl Components of Cotton-hulls Produced in Manchuria and North-China. (Rishichi TANAKA). ····· 107
Studies on the Relationship between Horse-hair's Lustre and Nutrition. (I). (S. MIYAMOTO, N. ONUMA, K. ARAI, and G. FUKAI). ····· 108
Über die Awamori-Bereitung nach dem modifizierten Amyloverfahren. (S. SIMO und N. KANAYAMA). ····· 108
On the Denaturation of Proteins in Benzine-Extracted Soy-bean During Storage. (II). (Shigeki MORI). ····· 108
Functional Studies on Soils. (XXXXI~XXXXIII). (Hideo MISU). ····· 108
Studies on the Production of Acetone and Buthanol by Fermentation. Part (II). On the Production of Acetone and Buthanol from Jerusalem Artichoke. (Toshinobu ASAI, Riukichi KOJIMA, and Isamu WATANABE). ····· 109
Biochmical Studies of "Bakanae" Fungus. Part III. The Chemical Constitution of Gibberellin. III. (T. YABUTA, Y. SUMIKI, K. ASO, T. TAMURA, H. IGARASI, and K. TAMARI). ····· 109
Study of the Insecticidal Principle in the Smoke Produced by Combusting Insect Powder. (Part V). (Makoto NAGASE). ····· 109
Über die Bildung der Oxalsäure aus Methanol oder Ameisensäure durch Asp. niger. var Nr. 2. (S. BABA). ····· 109
Biochemical Studies on the Tissues and Organs of the Silk Worm, *Bombyx mori* L. Part 1. On the Catalase Actions of the Fatty Bodies. (Takeo NAKASONE). ····· 110
Biochemical Studies of "Bakanae" Fungus. Part 13. Action of Gibberellin on Tobacco Seedlings. (T. YABUTA, Y. SUMIKI, K. ASO, and T. HAYASI). ····· 111
Studies on the Fat of *Phaseolus radiatus* L. var. *aurea* PRAIN. (1). Fatty Acids and Sterols. (NOBUO ITO). ····· 111
A Method for Determining Milk Solids in Modified Milk Powders. (Tomokiti SAKAI). ····· 112
Untersuchungen über das sogenannte „Gluconobacter." IV. Mitteilung. (Teijiro UYEMURA and Keiji KONDO). ····· 112
The Investigation of Glutamic Acid Preparation. (Part V). Experiment in a Semi-Industrial Scale. (Bunzo ROKUSHO, Rishichi TANAKA, and Hiroshi SAITO). ····· 112
Digestibility of Acorns Fed to Sheep and Rabbits. (Hisayoshi IWATA and Bunei HIROUCHI). ····· 113
Relation of Fat to Riboflavin Requirement of Growing Rats. (Ume TANGE). ····· 113
Functional Studies on Soils. (44~46). (Hideo MISU). ····· 114
On the Chemical Studies of the Bagasse Pulp. (7). (T. TADOKORO and M. NISHIDA). ····· 114
Über die Verwandlungen der chemischen Zusammensetzungen der Getreidefenniche im Wachstum. (Tetujiro OBARA). ····· 114
Study of the Insecticidal Principle in the Smoke Produced by Combusting Insect Powder. (Part VI). (Makoto NAGASE). ····· 114
Biochemical Studies on the Tissues and

Organs of the Silk Worm, *Bombyx mori* L. Part II. On the Catalase Actions of the Malpighian Vessels. (Takeo NAKASONE). *114*
Studies on Ascorbic Acid. IV. On the Action of Ascorbic Acid on Glutathione. II. (Kichinosuke FUJIMURA). *115*
Chemical Studies on Shark Meat (III). Isolation of Shark Meat Protein. (Kinsuke KONDO, Tadao HATA, and Seiichi KIMURA). *115*
Über die Bestandteile der japanischen Mistel. IV. Mitteilung. Harz- und Fettsäure im Wachs. (Yataro OBATA). *115*
Über die quantitative Bestimmung der Pyrethrine. X. Mitteilung. Über den Pyrethringehalt und den Wirkungsgrad von Moskitostäbchen. (Sankiti TAKEI, Kiyosi WAKAZONO und Keizo HIRAOKA). *116*
